

# Farmers Offering SEA-90™ to Dairy Cows

## Report 100,000-350,000 Point Drops in Somatic Cell Counts!

As we all know, life first came from the sea. Now, the sea is giving life back.

**D**airy producers throughout the US that feed or offer free choice SEA-90 to their livestock report significant drops in somatic cell counts, increased production, protein, butter fat, and "best herd health ever seen". SEA-90 can replace any mineral salt currently offered and can be foliar applied to pastures for less than \$3 per acre. SEA-90

is produced by nature and available exclusively through SeaAgri inc. It provides balanced minerals and trace elements in numbers never before seen in agriculture. Grass fed beef producers throughout the US are also reporting amazing results once SEA-90 is incorporated into their programs. SEA-90 is an extremely versatile product that can be offered to all livestock as mineral salt, broadcast on all types of forage, pastures, crop soils, and is easily dissolved for foliar spraying. SEA-90 is NOP Organic and OMRI Listed® for use in the production of organic food and as an animal feed ingredient.

When asked to explain the amazing results reported from all areas of the US, Robert Cain, founder of SeaAgri responds: Pasture grasses could provide our livestock with as many as 100 elements if present in the soil. However, our soil and pastures are elementally deficient and we are forced to offer a significant number of mineral supplements to livestock in order to maintain herd health. Until now mineral supplements supplied only a few specific elements essential to sustain life. The periodic table lists more than 92 minerals and trace elements. The only place where all elements exist in perfect balance and proportions is in sea water. At one time, more than 92 minerals and trace elements were present in our soils, crops and pasture grasses. Through erosion, over cropping and long term application of NPK fertilizers, many are lost, carried away or rendered unavailable. Cain also states that degenerative diseases that plague the human race such as cancer and heart disease are not found in sea life. He believes that it makes perfect sense to incorporate the full spectrum of periodic table elements found in SEA-90 into farming programs. Who can state, as fact, that any one of these elements is NOT essential to life.

SeaAgri produces SEA-90 naturally from pristine sea water harvested from one totally unique location in our hemisphere. "What we've done is create reservoirs at a coastal estuary in an arid region where pure ocean water flows in at high tide. Water evaporates quickly due to desert conditions of very high temperatures and virtually no rainfall to produce mineral-rich SEA-90" Cain said. A scientist asked to analyze SEA-90 stated that it was one of the most unique products he ever encountered. When asked to explain, he said, "It is exactly what I would expect to see if I analyzed a sample of the earth's crust.

SEA-90's bounty of minerals and trace elements significantly improves herd health, remineralize soils, and increases the nutrient density of pastures and crops. More than 1,000 farmers are convinced, as SeaAgri has already shipped over a million pounds of SEA-90 this year.

100% NATURAL TRACE MINERAL SALT

# SEA-90™

90+ Minerals & Trace Elements from the Sea  
Full Spectrum Nutrition in  
Nature's Perfect Balance

Preferred by All Livestock

### BENEFITS

- Increase Dairy Production
- Improve Animal Health & Vitality
- Faster Weight Gain w/ Less Feed
- Increase Nutrient Density of Forage Pasture
- Reduce Somatic Cell Count

### APPLICATIONS

- Free Choice Mineral Salt
- Feed Additive
- Remineralize Forage, Crops & Soil
- Water Soluble for Foliar & Irrigation Application
- Less than \$3 per acre
